Paul Izekor

A Well-Seasoned & Interdependent Front End Developer

A Professional Front End Developer with 2+ years proven track record in blending designs and codes to deliver user friendly, responsive, fast, immersive and engaging Websites & Apps through efficient development, proactive feature optimization, and relentless debugging. I have worked with assorted teams of Project managers, designers, and developers' large & small to deliver multi device friendly products in both flexible & tight deadlines.

Experience

Frontend Developer, ZURI (Applyforme Project)   **Dec 2022 – Present**

- Collaborating with other team members, executives, and ZURI team to further Develop and Maintenance Applyforme project as we push towards marketing and sales of product.

Freelance Frontend Developer   **June 2022 – Present**

- Deliver engaging user experience through optimization of images, code, and cross-browser compatibility, increasing Time on Page by 60+ seconds for 4 websites
- Expand features, refine code, and improve processes, producing smoother operations and enhancing user engagement
- Designed dynamic and browser compatible pages using HTML5, CSS3, and JavaScript.
- Utilized React Js, Next Js, Redux, React Router, API's, payment integrations Firebase hosting and real-time database.
- Built single page applications (SPA), responsive web design, UI using HTML5 grid layouts, CSS media queries where it's an expression and can be used to either true or false.
- Ensure efficient web development by supporting designers and app developers while resolving website performance issues

Apprentice/Self-taught Frontend Developer   **Nov 2020 – June 2022**

- Delivered responsive, cross-browser compatible and accessibility compliant websites, achieving faster load time than industry average
- Produced stunning visual elements of web applications by translating UI/UX design wireframes into code while producing high quality, reusable mark-up using HTML5 and CSS3
- Create User sign in/signup using Emails/password, social media and google
- Designing frontend within object-oriented JavaScript frameworks like Angular etc.
